REVERSED.

In case of Shipp vs. the Commonwealth, from Taylor county, was reversed last week by the appellate court. It will be remembered that he was charged with killing Joe in Campbellsville, and was tried in Adair county jury.

OBITUARY.

Early Saturday morning a tender messenger came calling Mrs. Mattie Moody, the beloved wife of Mr. George Moody, of Taylor county, home to her deathbed. The illness of Mrs. Moody was of several months duration, but it was borne with the gentle patience known only to those who walk with God. The summons found her ready and willing to move upward and onward with a fuller knowledge and greater happiness.

The deceased was a member of the M. E. Church and was identified with the best social circle of her community.

Her charity, kindness and goodness of heart won for many friends who remained loyal to her death. Mrs. Moody's unspoken creed of usefulness could be well written in these words: "I shall go through this life but once; every good thing that I can do or any kindness that I can show, let me do it now; let me not defer it nor neglect it for I shall not pass this way but once."

"Weep not that her toil is over; Weep not that her race is run, God grant that we may rest as sweetly, When, like hers, our work is done. 'Till then we would yield with gladness Our loved ones to him to keep, And rejoice in the sweet assurance, He giveth His loved ones sleep."

LUTHER AND MATTIE.

The Columbia Brass Band furnished the music for the Ladies Aid Society Friday night, at the supper, and its compliments were as the sands of the seashore. The many complimentary expression of the Band were justly due for the music was truly to the taste of the present. We are authorized by the Ladies of this society to extend to the excellent young men of the Band their heartfelt thanks for their good music and good will.

The Courier-Journal proposes to find the three prettiest women in the state and then defy the rest of the country on the beauty of women. The prize for the most beautiful woman in Kentucky is \$100; for the second \$50; for the third \$25. If you know of a lady whose beauty impresses you as a model, secure her photo and mail to the Editor of the Beauty Contest, Courier-Journal.

The three story Garage building in which the Ladies of the Christian Church gave their elegant supper on the night of the 22nd inst., was beautifully lighted by electricity and comfortably warmed by steam. The receipts amounted to about \$35, with a small amount off for expenses. Everything went off nicely.

Parties in the East having seen Mr. Azbill's article in the Manufacturers Record since the organization of the Commercial Club, have been writing to learn more specifically about timber, coal and other minerals in this country. What we need just now is better roads to aid us in developing the real worth of this country.

Mr. G. B. Smith sold his farm on the Stanford road to Mr. M. O. Stephenson, of Esto, Russell county, for \$3,300. Mr. Stephenson is one more of Russell county's best citizens to cast his lot with us. For the present Mr. Smith will occupy the Sam Shreve residence near the mill.

The Woman's Missionary Society of the Presbyterian Church will meet at the home of Mrs. Georgia Shelton Thursday 2:30 o'clock. The ladies and friends of the Society are cordially invited to attend.

Marriage license were granted last week to Felix D. Moss and Miss F. Burrell, and J. F. Easthorn to Miss Nannie L. Tarter.

FREIGHT LINE.

To Connect Columbia and Campbellsville—May Be Installed at Once.

Unless plans which have been nearly perfected go for naught, Columbia is to have a train—"kyars" if you will, which will whistle for crossings and which will "chuck-chuck" in the most approved style. The day for "knockers" and "sore heads" has passed; those who have said Columbia will never hear the whistle or see a train, can take a back seat, for "she's" most here. Ere many moons have slipped away the good old town will be thoroughly aroused by the shrill blast of the locomotive and the "chug-chug" of the freight as she pulls the grade. In true "Rip Van Winkle" style we will rub our eyes and ask, "What is it?" But it will not be a train or a piece of imagery—the "kyars" will be there beyond the question of a doubt. It seems too good to be true, but unless some unforeseen circumstance is in the way it is a fact.

Messrs. W. R. Myers and L. W. Abbott left for Lexington Monday with a view to inspecting, while at work, the outfit mentioned above. For some time the above named gentlemen have been in correspondence with a concern for a traction engine and road cars to be used in transporting freight from Campbellsville to Columbia, and should they be pleased with the working we will soon have means of carrying from thirty to forty thousand pounds of freight at one time.

Many methods and suggestions as to getting better freight service have been advanced, but we have heard of no plan which seems so feasible as the one about to be adopted by Messrs. Myers and Bennett. Success to you gentlemen.

SKATING RINK.

Messrs. George M. Hendrick and Frank Hill are preparing to open a skating rink in the front room of Mr. Hendrick's warehouse on South Main street. The room is 50x60, a new floor is being laid and dressed off, they expect to open up Friday or Saturday evening the skates having arrived.

FAIR GROUNDS.

To Be Sold at Public Auction Next Monday, March the 4th.

The Master Commissioner will sell the Fair Grounds, near Columbia, next Monday. This property is especially suited for a fair and has been used for that purpose for many years.

The lay of the land meets the requirements, the abundance of shade and the supply of pure water, together with its location make it an ideal fair ground. While this is a desirable piece of property yet its highest value is realized for fair purposes. So far as we know there will not be any organized effort to keep up the fair or to buy in this property but if there are any who are so inclined, now is the time. To allow the fair grounds to pass to some one who will use it for private purposes means that Columbia may never have another fair, but if it is to be used for a place of public entertainment then those interested in holding a fair ought to prepare to bid it in. The sale is next Monday and there may be some lively bidding.

SPLENDID ADDRESS

Delivered By Rev. R. B. Grider At the Recent Robt. E. Lee Celebration Here.

Following is the address in full delivered by Rev. R. B. Grider at the Court House here upon the one hundredth anniversary celebration of the birth of General Robert Edward Lee on January the 19th, 1907:

Ladies and Gentlemen: I appreciate very much the honor the Daughters of the Confederacy have conferred upon me by inviting me to deliver the address on the occasion of the one hundredth anniversary of the birth of that great and good man—General Robert Edward Lee; and yet I feel some degree of embarrassment in attempting a task so great before some who, having been personally acquainted with General Lee, and having so loyally followed him through the great struggle between the States, knew him better than it is possible for me to know him.

Robert E. Lee was the son of Gen. Henry Lee, familiarly known as "Light Horse Harry Lee," of Revolutionary fame. He descended from a long line of noble English ancestry.

Gen. Henry Lee died when his son, Robert, was but eleven years old, thus, upon his young shoulders fell the burden of caring for his widow mother; perhaps no boy was ever more thoughtful for the wants of a mother than Robert E. Lee. He was so devoted to her that when he was leaving home to enter the Military Academy, his mother said, "How can I do without Robert? He is both son and daughter to me."

Having been preceded by an ancestry of statesmen and warriors reaching far back into England's history, it seemed but natural that young Robert should decide to enter the army. He accordingly entered the Military Academy at West Point, at the age of eighteen and graduated four years later with second honors in his class and without a single demerit.

Those who were familiar with young Lee while in the Millitary Academy and knew of his good deportment, his correct habits of study, his strict integrity, and his superior intellectual ability, predicted for him a career of great usefulness than that of the average graduate from the military Academy.

Soon after he graduated he was married to Miss Mary Custis, who was the great-granddaughter of Mrs. George Washington; this perhaps, had a great deal to do in determining the future of that brilliant young soldier, for he had married a woman of superior intellect, a knowledge of unusual refinement and culture and great kindness of heart; thus the domestic relations of Gen. Lee must have approached very nearly the American ideal.

Gen. Lee first came into great military prominence by the distinguished services he performed in the Mexican War, for which he was covered with brevets. He showed such extraordinary skill as a tactician and field-commander that General Scott referred to him as, "The very best soldier I ever saw in the field."

Just after the Mexican War he became Superintendent of the Military Academy. His thorough knowledge of the Academy in former days being aug-

mented by his actual experience on the field of battle, had eminently prepared him for the new position. Having a keen sense of the responsibility now resting upon him, he introduced many changes and brought about many reforms in the Academy that were wholesome and conducive to the best interests of the student body.

Gen. Lee was next sent to Fort Sumpter and other places along the coast with a corps of engineers to make greater preparation for the coast defense. Little did he think that within the next few years he, with a great army would be as eagerly engaged in an effort to destroy these fortifications.

When the dark clouds of the Civil War were gathering, Gen. Lee was stationed in Texas. The infirmities of age were so upon Gen. Scott as to practically unfit him for further service at the head of the army in the field. It became apparent that Gen. Lee was the logical man to succeed Gen. Scott. Lee, himself, was not a secessionist and declared, when approached upon the subject, that, "If the millions of slaves in the South were mine, I would free them all with one stroke of the pen to avert this war." Every influence was being brought to bear upon General Lee to induce him to remain with the Federal government; to this end President Lincoln sent a messenger to Gen. Lee and offered to give him supreme command of the forces in the field. He loved the Stars and Stripes under which he fought so bravely in the Mexican War, and to accept Mr. Lincoln's offer meant to take command of a finely equipped army. This, with the wealth of the Federal government and its vast resources of men and munitions of war back of him, would, in all probability, lead to victory—Victory would ultimately result in his election to the presidency.

True to his convictions of right, he replied to the messenger, Mr. Blair, "I cannot bear arms against my state, my home, and my children." Thus without fear of consequences or hope of personal gain, he cast his lot with the Confederacy.

When General Lee's mind was fully made up and his position taken, Gen. Scott said, "Lee would have been worth ten thousand volunteers to us."

Whether his final position was right or wrong, he was true to his convictions, and no temptation, with the exception of the temptation of Jesus Christ in the wilderness, has come to man greater than this Federal offer to Gen. Lee, and never has temptation revealed truer character.

The great struggle having begun, Lee, in brilliant attacks and maneuvers, baffled and defeated McClellan and every hand in him absolutely forced him from the field and caused the Federal Government to take his command.

Lee then defeated one after another until he was finally confronted by Gen. Grant with one of the finest armies the world has ever seen. For some time Lee more than held his own until finally, seeing he was so greatly outnumbered that to prolong the struggle meant the murder of his men, he surrendered.

I think we have before us an ideal General. The world has been inclined to idealize the victor without any regard for how victory was won; and it has been said that, "nothing succeeds like success," but this is too general a term to apply in this case. Little by little we are beginning to understand

that, although engaged in war, we may have a human regard for the sacredness of life. To sacrifice an army without hope is heathenish, and the higher our civilization the less it is done. So we see that when Gen. Lee surrendered his army to Gen. Grant instead of sacrificing it to him, he approached the ideal by showing his regard for his men and taking one step toward disarmament after the settlement of all great questions by arbitration.

To give you some idea of the strict honesty of Gen. Lee, I will tell you about his dealing with his youngest son: The boy wanted to enter the army, and Gen. Lee permitted him to do so upon condition that he would enlist as a private. How vastly different that was from some modern methods by which we would expect the boy to be given an official position and be promoted rapidly by the "pull" process. In reply to a request of the boy's mother, that he should be kept near his father, Gen. Lee said he wanted him to be among strangers and merit promotion and receive it by recommendation from others than his relatives.

Just before the close of the war some men were sent to the Southwest to purchase horses for Lee's cavalry; the war closed before the purchase was made. It had been necessary for each of the men to carry five thousand dollars in gold. On hearing of Lee's surrender one of the men returned with his money, but was at a loss to know what to do with it. One man suggested that they divide it. Another said, "Divide it in three." When Gen. Lee was consulted, he said, "It is a part of the spoils of war," and directed it to be turned over to the Federal government. It has been said of Gen. Lee that, "As great as he was in war he was greater in peace." Shortly after the close of the war he was elected president of Washington College at Lexington, Va. Before the war the largest enrollment of the College was one hundred. During the war the school was suspended and the buildings were used for shelter for cavalry horses. Gen. Lee saw the desolation of the country and knew the way to develop it most rapidly was to educate its citizens. He accordingly set about the work with as great zeal as had ever characterized him on the battle field. His success was phenomenal. The enrollment soon reached four hundred and ten. So great was his success that the name of the College was afterwards changed to Washington and Lee University.

General Lee was a man of strictest Christian integrity. Rev. Mr. Jones said of him: "He was the sincerest and most consecrated Christian I ever saw." Gen. Lee said, on one occasion, that his College work would be a failure if all his pupils were not converted.

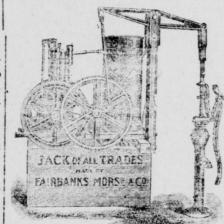

During his presidency of the College he was offered more than once a large salary if he would only allow his name to be used in connection with life insurance companies. He declined by saying that he could not give value received and that his name would misrepresent matters and be fraudulent.

If we had such men at the head of all our great life insurance companies and other great corporations we would hear less talk of graft and investigation, for fraud could not exist. If we had men like Gen. Lee to superintend the Military Academy we would never hear of "hazing."

Perhaps the greatest test to which a

man's reputation may be subjected is that of prejudice. Greater prejudice never existed than that between the North and the South in the sixties, and yet the greatness of Gen. Lee has so completely overcome it that now but the narrowest fail to realize and admit it.

We love the memory of Washington and every one admits that he was a good man and a great general, and yet, if he had lived in the time of Lee and had held his position in the Confederate army I do not believe he could have accomplished what Lee did.

I regard him as not the least among the world's generals, but the equal of, if not greater, than any other known to history. Well may we assemble in celebration of the one hundred anniversary of one so great. He loved the Stars and Bars under which he fought so bravely, but when the struggle was over he could easily content himself to spend the remainder of his life under the protection of the Stars and Stripes.

It has been said that, "As long as Gen. Lee is remembered, Americans will not lack for patriotism." Neither will they be lacking in moral courage. Now, the Veterans and their sons and daughters are invited to meet around the festal board, and as soon as you do this you continue to perpetuate the memory of that great chieftain and show forth the high regard you still have for him.

COWAN IS SENT TO NEW FIELD OF LABOR

Well Known special Pensioner Examiner Is Transferred From Springfield to West Virginia.

James P. E. Cowan, special pension examiner, owing to a reduction of his work in the Springfield district, has been transferred to a new district, with headquarters at the city of Point Pleasant, W. Va. This district is mountainous and bisected by the Big Kanawha and the Ohio rivers, but is well supplied with railroad lines.

Special Examiner N. B. Miller will remain in charge of the Springfield district, his territory being enlarged by the twenty-one counties heretofore in charge of Special Examiner Cowan, and situated in northern Arkansas and southwest Missouri. Thus he will have a territory embracing forty counties, making this the largest single district for the special examination of pension claims ever constituted in the state of Missouri.

This fact demonstrates the rapid reduction of work of this class now going on in the country at large, and is due to the extensive falling off of original pension claims caused by the death of soldiers who participated in the civil war, and also in part due to recent pension legislation, which increases pensions of civil war soldiers upon an old age basis.

Mrs. Cowan was connected with The Republican, as news editor, thirteen years ago, when the paper was owned by Chambers & Comings, and resigned to enter his present position in government service. He came here from the Cape Girardeau pension district last May. He is making arrangements to leave Springfield Monday night for his new field of labor.—Springfield Mo., Republican.

PLANS FOR GREATER LOUISVILLE EXPOSITION OPENING MAR. 18.

BASE-BALL GAMES SPECIAL DAYS.

Louisville Extends a Most Cordial Invitation To All To Visit Louisville At This Time.

As the time for the opening of the Great Louisville Exposition draws near, the interest in that great event in this and all other sections of the State of Kentucky, as well as throughout the South, is greatly increasing. The visitors to Louisville will return home with a better knowledge of the interest in the exposition and pride in the enterprise and public spirit of the exposition officials working so hard in the interest of their state and city without prospect or wish for any pecuniary gain.

Showing what pride they take in their city's great enterprise, the merchants and manufacturers of Louisville have covered their envelopes and packages with the name of Louisville, and in many instances the matter concerning the exposition, and the title, "Greater Louisville Exposition," seems to appear in the most unexpected quarters at the most unexpected time. Louisville "drummers" who visit here let no one escape, and, if for no other reason, the people of Kentucky will be bound to go to Louisville between March 18 and 30 to see what has been so widely heralded. This will be a matter of easy accomplishment, because the railroads of Kentucky have announced a rate of old age basis.

Mr. Cowan was connected with The Republican, as news editor, thirteen years ago, when the paper was owned by Chambers & Comings, and resigned to enter his present position in government service. He came here from the Cape Girardeau pension district last May. He is making arrangements to leave Springfield Monday night for his new field of labor.—Springfield Mo., Republican.

CHAS. S. HARRIS — EDITOR

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and the adjacent counties.

Entered at the Columbia Postoffice as second class mail matter.

WED., FEB. 27, 1907.

After all the open and avowed efforts to political purity; after millions of American ladies had petitioned the United States Senate to place the stamp of disapproval of polygamy by discharging Reed Smoot from that honorable body, and after four years investigation and an over abundance of proof showing him to be in full accord with polygamous teaching, yet for the sake of securing the secured—the Republican vote of Utah, Mr. Smoot was sustained by a vote of 42 to 28. There were three Democrats, Blackburn, of Kentucky, Daniels, of Virginia and Clark, of Montana, who voted for Smoot to retain his seat, while the following Republican Senators voted to oust him. Burrows, Clapp, Du pont, Hale, Hansborough, Hem enway, Kittridge, La Fayette and Smith. While only three Democrats disregarded the demands of American womanhood, trampled under foot the appeals of the millions who plead for a higher and better moral standing of the States who demanded that Utah should put aside polygamy, and live within the limits of the constitution and the agreement on which that territory was given Statehood, only nine Republicans showed game enough to disregard the weight of politics and the tendency of the times to build political strength by compromising with dishonor. The trial of Reed Smoot is familiar to every American citizen who reads. His connection with a polygamous creed that dominates Utah was thoroughly established, but his influence and the power of Mormonism in the political world evidently were too strong to be disregarded by a Republican Senate. The sustaining of Smoot by a Republican Senate, and the ousting of Rob-

erts, a Democrat, by a Republican Congress, ought to show the moralist and the women of America that the G. O. P., cannot be trusted to purify if purification lessens its power. Roberts was a Mormon, Smoot is a Mormon, Roberts had more than one wife, while Smoot stands as one of the leading apostles, with only one wife, yet a strong defender of the doctrines that permit plural marriages, guilty equally with Roberts. Roberts was elected to Congress, but was ousted before he had a chance to be sworn in. Smoot is there unstained and undismayed, and if the Mormons fail to give their solid support, in every instance, to the Republican party then they will be ingrates of the worst type.

Congress has devoted much time and appropriated tremendous sums of money for the improvement of harbors and rivers, and the building and maintaining of a powerful navy. These two propositions seem to have convinced the present Congress that its only duty is to deepen channels and put the most powerful war vessels on the briny deep; that through the means of deep water our commerce can only be extended, and by the maintenance of a tremendous navy our peace and friendly relations with other nations maintained. The fact is that Congress seems to have scared at Japan for the Naval Appropriation Bill sets aside \$100,727,807 to be used in acquiring more naval strength, and the Rivers and Harbors get \$2,720,475. Congress is preparing for war in time of peace—building a navy to awe the strongest powers, and burden our own people. We are fast departing from the theory upon which American greatness in every line has been achieved, and her power and prestige maintained—relying on the patriotism of our people, and the justness of our position in every controversy. The "Big Stick" policy, fighting, is the order. Create an army and navy so immense and so powerful as to cause other powers to fear us, rely on those paid to fight, instead of depending on the valor and patriotism of our citizens, backed by truth and justice, armed with a love for free institutions, free people and a free and just government. In all the past our strength has been vested in the patriotism of our citizens, and no foe has ever blocked our progress or seriously im-

paired the valor that wins in every conflict. The best Government is the one that gives most freedom; the strongest, the one armed with the broadest, highest, deepest patriotism.

At a recent meeting of the State Guards in the city of Frankfort, Col. W. B. Haldeman offered the following resolution:

Resolved, That this Convention in the interest of the Kentucky State Guard and in with the action of other States in providing for their militia, does respectfully and earnestly urge upon the members of the Legislature that will assemble in January, 1909, to make a provision will insure regular attendance at drills and other exercises necessary to the proper discipline and military training of the organized militia of Kentucky. To that end we state our belief that attention should be given to the commission of officers at drills, inspections, parades and other exercises prescribed for the instruction of the Kentucky State Guard, be construed as the performance of one day's duty and be paid at the rate of the Kentucky State Guard for more than fifty-two dollars per annum, such exercises by any member of any company, battalion or regiment.

In our judgment the Legislature should meet the require-

ments of the resolution, first; because it is right to do so. Second: because it will encourage and strengthen the organization that must be depended upon in time of trouble. Those who enlist as State Guards place themselves under special obligation to do police work for the good of the State, and are often called on to render service. In order to be proficient, to be ready to meet any emergency, it is absolutely necessary for them to attend drills, and use a part of their time in various ways to the disadvantage of their personal interests, consequently, it is but just that a reasonable compensation be allowed. We trust that the Legislature will see the justice of such action and make the provision required in Mr. Haldeman's resolution.

The biggest Thaw ever experienced is now on in New York.

On April the 2nd, the primary election to nominate a Democratic candidate in this, the second Railroad Commission District, will be held.

National aid for public roads is far more preferable, and would prove of far more value to the interior of our country in advancing its commercial interests than any other move that could be made. It would be better than spending the money on rivers and building war ships. To liberate the interior we must have roads, and the Congressman who will introduce a measure and secure its passage appropriating Federal money to the road funds of the states will prove the greatest benefactor the farmers and rural population has ever had. Instead of putting in over \$100,000,000 to build war ships, give it to the road funds. Instead of appropriating over \$92,000,000 to open up navigation between the Lakes and the Mississippi put it in the road fund. Had these two appropriations been made for roads, each State would have had over \$4,000,000 to go into substantial roads. This sum should be supplemented by the States and the counties. How long, Oh how long, will the Captains of Industry control the country and the people who produce the wealth, feed and clothe the world be ignored and forced to wade in the mud?

HUMBLE.

Mrs. Mary M. Foley, wife of Rev. Moss Foley, happened to a very serious accident recently. She was knocking about in the yard and while passing along by the chimney some loose brick at the top gave way and fell striking her on top of the head knocking her to the ground. Her husband being in the house at the time heard the brick fall but did not know what it was until he heard her groaning and went out to see what was the matter. He found her lying on the ground with hands thrown up and head turned back and the blood was flowing very freely from the gash that was cut on her head.

He carried her in the house and laid her on the bed. She was not conscious of anything for sometime and when she regained consciousness she did not know what hurt her and it was thought for a while she would not recover but is improving a little at this writing.

Editor News:

We take this method to appear before your many patrons with a few facts bearing on our road question in Green county, (not the roads themselves, for 12 horses were seen the other day hitched to an empty wagon,) but to our method for raising funds to get out of the mud. Green county Turnpike Company was incorporated last week as you noticed, with a capital of \$15,000. Greensburg up to last report has pledged near half the amount and is working nobly and yielding her points of preference to secure the road. Camp Knox has secured about \$4,000 which has been liberal for them. I have been named as solicitor for the Ebenezer section, and as a "means of Grace" you all know good roads head the list. So if you want any "gilt edged stock" I shall be glad to take your orders. The policy of the Incorporators is liberal viz: to make this the turnpike line and use the dividends to build feeders to it, so it is bound to pay. \$10.00 is a share and a vote in its management; 25 shares and you are eligible as a director; 9 directors will control our interest, so we hope to find 25 share men enough in the different sections needing these feeding roads to take the necessary stock to help themselves by helping us get this completed at an early day. It will be the best monument to our memory, when you are gone that can built in stone—an up-to-date Macadam road that will be self perpetuating.

The spirit of progress is surely at work in our county and let me assure you we are coming to the line. I am expecting to find you waiting and watching for us. Very Respt,

RUGBY.

The Grippe and colds seem to be the order of the day.

Uncle Billy Rupe passed away the 24th of last month. He was an upright old gentleman, one of the oldest men of the county, being some where in 90. He was married twice and was the father of 24 children, and had been an invalid for a number of years. He was one of the pioneer members of the United Brethren Church, being a member of that church about 65 years.

The farmers are burning plant beds since the snow melted.

Mr. John Hamilton and wife, of Nell, visited Mr. Bob Royse and family, last week. He was buying hogs when he found them for sale, but most of them have been picked up, and what is left

took to the woods, squealing 7 cents.

J. M. Shive visited his daughter, at Glenville, last week.

Nothing will relieve Indigestion that is not a thorough digestant. Kodol digest what you eat and allows the stomach to rest—*re-creates—gives strong energy*. Kodol is a solution of digestive acids and as nearly as possible approximates the digestive juices that are found in the stomach. Kodol takes the work of digestion off the digestive organs, and while performing this work itself does greatly assist the stomach to a thorough rest. In addition the ingredients of Kodol are such as to make it a corrective of the highest efficiency and by its action the stomach is restored to its normal activity and power. Kodol is manufactured in strict conformity with the National Pure Food and Drug Law. Sold by Page & Dohoney, Columbia, Ky.

All parties indebted to us are requested to settle at once. We are going to the market and need the money.

MISSES EUBANK

LEBANON, KY.

Editor News:

It is useless for me to make any mention of the town in which I am located at this time because every one in the Southern portion of the State knows what a nice little city Lebanon, Ky., is, notwithstanding there are some evils existing in this place that do not exist in the moral capital of Adair, yet these are not accountable for by any one person. From what I can learn there is a spirited contest on between the temperance forces and the liquor men. A vote on the question will be taken at an early date. Some say Lebanon will go dry, while others take the reverse position in the matter, it seems uncertain at this time as to the results.

My assignment is in the Bottling house of Wathen Muller & Co., 3 of a mile down the railroad from Lebanon. I am working with the girls now, six of the fair creatures being employed in my house. I feel a little out of place with so many girls, from the fact that one is as many as a fellow usually wants present at one time. The fact of the business is I'm not much of a "lady's man" anyway as you all know. I still have a faint recollection of having thrown several "bombs" in the camp of the "old maids" in Columbia away back months ago, and I think the declarations I made in a manner refuted some of those on the retired list."

I never was more surprised in my life than I was last Tuesday evening when I saw one of our citizens get off the train here, enroute up the country. I think this was a strange move on his part knowing him as I do. He was all "spruced" up, and he wore a smile that won't come off. From the indications I believe there is something on foot. Why, of course he is a single man and an O. B.

Mr. Tom White, one of our county men is located here, and his long stay in the revenue service has put him up to the business in its varied details and complications, he is jolly and companionable and the "blues" never enter into the place where he abides. He is located in the distillery across the way.

Capt. Howard is one of our old "stand bys." He has been in the service so long that he almost has it by heart, and every one on the plant thinks the Captain is a grand old man. Mr. W. T. Price is down the line at Coon Hollow, and I believe he will make one of the "old vets" when he gets sufficiently advanced in years if he continues in the service. "Shorty" has the appearance of a revenue man, and everybody likes him. He is jolly and good natured all the way through.

Well, Editor Harris may be scarce of space just at this time, so I will close for the present.

This is the first of the season in this section.

Mr. Henry Gaskin, of Sparksburg, was here last week looking after a saddle horse.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between the ages of 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that vitalizes every organ of the body. Guaranteed by T. E. Paul, Druggist, 50c.
